

Download Building A Better Future For All

Chlorella vulgaris cells under the microscope. These microalgae have a variety of uses on Earth and may be part of life support systems on future space voyages. What if every single act of design and construction made the world a better place? The Living Building Challenge is the world's most rigorous proven performance standard for buildings. We've gathered resources and a plan, and are proposing concrete action for how to make our schools better. But it will require all of us working together for change. Let's get started. GFB - Bird Hides, conservation & skills ** Business opportunity at GFB - click 'Contact' tab ** Green Future Building Ltd (GFB) is a not for profit social enterprise, committed to conservation., Building A Better Future For All.
