

Download Domestic Dog Evolution Behavior Interactions

The origin of the domestic dog includes the dog's evolutionary divergence from the wolf, its domestication, and its development into dog types and dog breeds. Dog behavior is the internally coordinated responses of individuals or groups of domestic dogs to internal and external stimuli. It has been shaped by millennia of contact with humans and their lifestyles. Behavioral Genetics and Animal Science TEMPLE GRANDIN AND MARK J. DEESING Genetics and the Behavior of Domestic Animals (Chapter One) Academic Press 1998 The evidence that people form strong attachments with their pets is briefly reviewed before identifying the characteristics of such relationships, which include pets being a source of security as well as the objects of caregiving., Domestic Dog Evolution Behavior Interactions.
