This article is one in a series that have been released in conjunction with Wayne's new book, 101 Performance Projects for Your BMW 3 Series. The book contains 272 pages of full color projects detailing everything from performance mods to timing the camshafts. Replacing your oil is easy - BMW knows that this needs to be performed once about every 3000-5000 miles, and designed the car that way. On the other hand, the BMW transmissions used on the E36 were supposedly designed with a life-time fluid that did not need to be changed. Just because your car is old doesn't mean it's outdated. It Still Runs is your ultimate auto resource, whether you rotate your tires or change your oil. At Bluespark Automotive we specialise in the design and manufacture of chip tuning boxes for both Diesel and turbocharged petrol cars.
