

# Download International Relations In Poland

International relations refer to political principles and processes as well as foreign affairs and relations between different countries. International relations systematically explore themes such as government and state, political behaviour, economic issues in local and international government systems. Graduates can work in government or diplomatic institutions as public affairs consultants, local government officers, or politicians. International relations systematically explore themes such as government and state, political behaviour, economic issues in local and international government systems. Graduates can work in government or diplomatic institutions as public affairs consultants, local government officers, or politicians. Anna Wojciuk is Associate Professor of international relations at the University of Warsaw, Poland. Her research interests focus on the concept of power in IR theory and on international dimensions of education and science. Recent political and economic changes in Europe have increased the demand for specialists in the field of international relations. To meet these needs, the Institute of International Studies introduced a program focusing on International Relations., International Relations In Poland.
