Walberg's book is a thorough education on the inner workings of Islam throughout history, especially in relation to its reaction against Western imperialism and interventionism in the Middle East. Islamic Resistance to Imperialism Islam challenges the two major premises of Western imperial world domination: "Give me control of a nation's money and I care not who makes its laws." (Mayer Rothschild) "War is the continuation of policy by other means." It then sums up the state of the ummah in the 21st century and prospects for future Islamic resistance to imperialism. Some of the themes it addresses include: 1- Islam's uniqueness (its stubborn anti-imperialism, its resilience in the face of color revolutions and attempts to recruit spies) He then sums up the state of the ummah in the 21st century and prospects for future Islamic resistance to imperialism. According to Walberg, in 1979, the Iranian revolution challenged the very ..., Islamic Resistance To Imperialism.
